

# Vista DME

## Your Trusted Partner for Enhanced Wound Care DME Management

### Comprehensive Software Solution & White Glove Service

Vista DME is dedicated to bringing you an unparalleled level of service for all your wound care supply needs. Our integrated solution is designed to simplify the process of managing your wound care, so you can focus on your recovery. With our personalized "white glove" service, we ensure you receive the support and supplies you need, all powered by an intuitive platform that makes everything seamless.

#### Effortless Ordering & Tracking

Our software streamlines the entire ordering process, from initial prescription to real-time delivery updates, accessible through your personalized dashboard.

#### Intelligent Compliance

The system verifies insurance eligibility and ensures adherence to payer guidelines, proactively preventing delays and denials.

#### Comprehensive Financial Oversight

Monitor invoicing activity and gain robust insights into your revenue cycle directly within the platform.

#### Direct-to-Patient Fulfillment

Supplies are managed and delivered directly to your patients' homes, with full transparency provided by the software.

#### Dedicated Support

Our team provides hands-on assistance, leveraging the software's capabilities to give you and your patients everything you need.

#### Ready to Get Started?

This exclusive partnership is designed to make your life easier. Contact us today to learn more about Vista DME and schedule your personalized onboarding.
