

How to Apply Your Wound Dressing

Collagen (Powder or Pad)

1 *Cleanse* - Gently clean the wound using a mild cleanser, such as the one provided in your box.

Apply Collagen - Lightly sprinkle collagen powder or place a collagen pad over the wound, ensuring full coverage. Do not pack tightly.

2

3 *Add Absorption Layer* - If your box includes an ABD pad or Xlta, place it over the collagen layer.

Cover & Secure - Use a dressing, tape, or gauze to keep everything in place.

4

Note: Repeat process as needed

How to Apply

Your Wound Dressing

Composite Dressings

1 *Cleanse* - Gently clean the wound using a mild cleanser, such as the one provided in your box.

2 *Apply Primary Dressing* - Apply either Xlta, silver alginate, or calcium alginate directly to the wound.

3 *Add Absorption Layer* - If your box includes an ABD pad, place it over the primary dressing.

4 *Cover & Secure* - Use a dressing, tape, or gauze to keep everything in place.

Note: Repeat process as needed
